Contributions by Surhid Gautam and Lit-Mian Chan. This book presents a state-of-the art review of vehicle emission standards and regulations and provides a synthesis of worldwide experience with vehicle emission control technologies and their applications in both industrial and developing countries. Topics covered include: * The two principal international systems of vehicle emission standards: those of North America and Europe * Test procedures used to verify compliance with emissions standards and to estimate actual emissions * Engine and aftertreatment technologies that have been developed to enable new vehicles to comply with emission standards, as well as the cost and other impacts of these technologies * An evaluation of measures for controlling emissions from in-use vehicles * The role of fuels in reducing vehicle emissions, the benefits that could be gained by reformulating conventional gasoline and diesel fuels, the potential benefits of alternative cleaner fuels, and the prospects for using hydrogen and electric power to run motor vehicles with ultra-low or zero emissions. This book is the first in a series of publications on vehicle-related pollution and control measures prepared by the World Bank in collaboration with the United Nations Environment Programme to underpin the Bank's overall objective of promoting transport that is environmentally sustainable and least damaging to human health and welfare. The French automobile pioneer and entrepreneur Andre Citroen is one of the neglected founding figures of the industry. Although his name remains a familiar household word, his colourful personality and spectacular achievements are now largely unrecognized. This illustrated biography reviews Citroen's life and work and catalogues the cars he produced. It restores his reputation as one of the most progressive and

imaginative characters in the history of the motor car. This is one in a series of manuals for car or motorcycle owners. Each book provides information on routine maintenance and servicing, with tasks described and photographed in a step-by-step sequence so that even a novice can do the work. The content is invaluable for owners of both leisure vehicles based on van conversions and coachbuilt models constructed on a separate chassis. Guidance is also given on accessories, weight restrictions, modifications, restoration work and self-build projects.

Before his groundbreaking work on such legendary titles as Superman: Red Son, The Authority, Civil War and Wolverine: Old Man Logan, and his hit original titles Kick-Ass, Wanted and Kingsman: The Secret Service, the New York Times best-selling writer Mark Millar tackled one of DC's greatest heroes: Superman! This collection brings together timeless tales of the Man of Steel, from Superman's good-bye to Earth to Lois Lane's personal account of a life forever changed by the Big Blue Boy Scout. Explore the heart of Superman, and the root of Lex Luthor's obsession with him, in stories from Millar's Eisner-nominated run on Superman Adventures. Plus, reimagine the Man of Tomorrow, in a world where Detective Harvey Dent undergoes a metamorphosis from man to Superman.

Superman by Mark Millar features art by Aluir Amancio (The Spirit), Georges Jeanty (Buffy the Vampire Slayer: Season Eight), Jackson Guice (Superman: The Death of Superman), Mike Manley (Batman), Sean Phillips (Sleeper), Mike Wieringo (The
