Child Maltreatment Aug 24 2020 **Child Maltreatment, Third Edition**, by Cindy Miller-Perrin and Robin Perrin, is a thoroughly updated new edition of the first textbook for undergraduate students and beginning graduate students in this field. The text is designed to provide a comprehensive introduction to child maltreatment by disseminating current knowledge about the various types of violence against children. By helping students understand more fully the etiology, prevalence, treatment, policy issues, and prevention of child maltreatment, the authors hope to further our understanding of how to treat child maltreatment victims and how to prevent future child maltreatment.

Marketing of Tourism Experiences Jul 23 2020 This book provides a review of the current theory and practice of experiential tourism and how it is marketed. Many societies today are characterised by widespread individual wealth of an order previously confined to the elite with the consequence that ownership of ‘ordinary’ physical goods is no longer a distinguishing factor. Instead people are now seeking the ‘extraordinary’ with examples being bodies enhanced through surgery, personal fitness trainers, and, in the case of leisure and tourism, seeking unique and unusual places to visit and activities to undertake. This trend manifests in the increasing consumption of services and the addition of experiential elements to physical goods by businesses aware of societal changes. The trend is enhanced by rapidly changing technology and economic production methods providing new sectors of the world’s population with access to the consumption experiences that are repeatedly featured in the media. This is the experience economy, characterised by a search by consumers for fantasies, feelings, and fun. This book was based on a special issue of *Journal of Hospitality Marketing & Management*.

The Works of Charles Darwin: Vol 26: The Different Forms of Flowers on Plants of the Same Species (Second Edition, 1884) Nov 07 2021 The 26th volume in a 29-volume set which contain all Charles Darwin's published works. Darwin was one of the most influential figures of the 19th century. His work remains a central subject of study in the history of ideas, the history of science, zoology, botany, geology and evolution.

Idolatry in the Pentateuch Feb 22 2023 *Idolatry in the Pentateuch* addresses both the manner in which the Pentateuch was produced and how theological intentions can be discerned from the texts that constitute it. McKenzie attempts to read the final shape of the Pentateuch while not ignoring the diachronic complexities within its pages. Using a compositional approach to the Pentateuch, he establishes his methodology, analyzes several idolatry-related texts, and traces the theological intentions through an inner-textual strategy. Moreover, McKenzie briefly considers the history of interpretation through the last few

centuries and discusses the state of Old Testament studies as he understands it.

A Functional Grammar of Gooniyandi May 01 2021 This volume sets out to provide a comprehensive description of the grammar of Gooniyandi, a non-Pama-Nyungan language of the southern-central Kimberley region of Western Australia. It covers phonetics and phonology, word phrase and clause structure, and the semantics of closed-class grammatical items. The major focus is, however, on meaning: how do Gooniyandi speakers mean with and in their language. To this end, the theoretical framework of systemic functional grammar, particularly as elaborated in Halliday's recent work, is adopted. Certain refinements to the theory are proposed in order to better account for the Gooniyandi evidence. Of obvious importance to those studying Australian aboriginal languages, this work has an importance to a wider audience for its effective presentation of theory justification.
