The Lenovo Affair Jan 18 2023 Lenovo is a global leader in the PC market, employing more than 19,000 people worldwide. Its landmark takeover of IBM's PC division in May 2005 was a major step for the company and a huge boost for Chinese industry. The deal proved to the world that Chinese companies are not only competitive in the domestic markets but can also compete at a global level. Lenovo was founded in 1984 by 11 engineers working out of a small bungalow in Beijing. Their crisis was to create a company that would offer PCs to the Chinese people at an affordable price. Using the brand name, Legend, it promoted PC usage throughout China and developed the revolutionary Legend Chinese character card that translated English software into Chinese characters. In 1994, Legend was successfully

listed on the Hong Kong Stock Exchange and in 2003 rebranded itself as Lenovo. The company went from strength to strength and dominated the Chinese market with more than 25% of market share in 2004. The IBM acquisition has marked another key milestone in the history of the company. Lenovo now has over \$13 billion in annual reserves and possesses necessary infrastructure to develop its markets around the world. The company is a worldwide sponsor of the International Olympic Committee and will offer funding and support to the 2006 Winter Games in Torino and the 2008 Summer Games in Beijing. Author Ling Zhijun is well known in China for his reporting on China's economic reform, and for his book "Jiao Feng". This book sold over two million copies in China. The author is a seasoned reporter for the People's Daily; based in Shanghai. Martha Avery, the translator and editor of this book in English, has translated a number of works of Chinese literature into English that have been published by such presses as Viking Penguin, WW Norton, HarperCollins, Farrar Straus Giroux and David Godine. Her most recent authored book is Tea Road: China and Russia Meet Across the Steppe. This is an economic history of the region and was published by the Intercontinental Press (China) in 2004. Ms Avery is based in Boulder, Colorado, but travels frequently to China as business consultant for a large software distributor called Software Spectrum, Inc.

The Lenovo Way: Managing a Diverse Global Company for Optimal Performance

Feb 19 2023 The Lenovo Way to Profitability and Growth In 2005, the Chinese corporation Lenovo acquired what was seen as a sacred American icon--IBM's personal computer business. It has since grown to become the world's biggest PC company and is now rapidly growing in the global mobile space. The Lenovo Way reveals practical methods for managing a truly diverse workforce operating around the world, drawn from both China and the United States. Gina Qiao is Senior Vice President of HR at Lenovo. Yolanda Conyers is Vice President of HR Operations and Chief Diversity Officer at Lenovo.

Global Supply Chain and Operations

Management Apr 16 2020 The second edition of this textbook comprehensively discusses global supply-chain and operations management, combining value creation networks and interacting processes. It focuses on the operational roles in the networks and presents the quantitative and organizational methods needed to plan and control the material, information and financial flows in the supply chain. Each chapter starts with an introductory case study, and numerous examples from various industries and services help to illustrate the key concepts. The book explains how to design operations and supply networks and how to incorporate suppliers and customers. It also examines matching supply and demand, which is a core aspect of tactical planning, before turning to the allocation of resources for fulfilling customer demands. This second edition features three new chapters:

"Supply Chain Risk Management and Resilience", "Digital Supply Chain, Smart Operations, and Industry 4.0", and "Pricing and Revenue-Oriented Capacity Allocation". These new chapters provide the structured knowledge on the principles, models, and technologies for managing the supply-chain risks and improving supply-chain and operations performance with the help of digital technologies such as Industry 4.0, additive manufacturing, Internet-of-Things, advanced optimization methods and predictive analytics. The existing chapters have been updated and new case studies have been included. In addition, the preface provides guidelines for instructors on how to use the material for different courses in supply-chain and operations management and at different educational levels, such as general undergraduate, specialized undergraduate, and graduate courses. The companion website www.global-supply-chain-management.de has also been updated accordingly. In addition, the book is now supported by e-manuals for supply-chain and operations simulation and optimization in AnyLogic and anyLogistix. Providing readers with a working knowledge of global supply-chain and operations management, with a focus on bridging the gap between theory and practice, this textbook can be used in core, special and advanced classes. It is intended for broad range of students and professionals involved in supply-chain and operations management.

[Biographical Dictionary of New Chinese Entrepreneurs and Business Leaders](#) Jan 26 2021

The book is an outstanding compilation. It is easy to use, the information is clear and well-presented, and the volume is smart and robustly crafted. . . The book is an important reference source for practitioners in international business, entrepreneurs and Asian studies. Bob Duckett, Reference Reviews The current compilation fills the need for a Who's Who in the Chinese business world. . . This is a useful reference for scholars and students in China studies and for business practitioners. Recommended. K.T. Wei, Choice As direct foreign investment, both inward and outward, continues to gather momentum, the need to understand the leaders of Chinese corporations is increasingly important. The Biographical Dictionary of New Chinese Entrepreneurs and Business Leaders is therefore a welcome addition to corporate and academic libraries. The encyclopedia provides up-to-date coverage of the major players in China's new economy. Dorothy Mays, Chinese Librarianship A long awaited reference volume! Professionally compiled and user-friendly. A must for the serious researcher. Leo-Paul Dana, Journal of Enterprising Communities Biographical information about business leaders and entrepreneurs in China is scattered in a variety of Chinese sources such as books, newspapers, journal articles, web pages, etc. and are difficult to locate, especially from outside of China. This biographical dictionary, written in English, which includes some 200 of the most important movers and shakers of the new Chinese economy since 1978, is a very useful reference tool for libraries of all types as well as for anyone who is interested in learning and understanding the growing influence of China as a new economic power in the world. Hwa-Wei Lee, formerly of the Library of Congress, and Ohio University Libraries This impressive effort by two leading scholars of Chinese business and society will quickly become a reference for all students and practitioners. Indeed, it is a ready vade mecum, filling the crying gap many experts have identified in recent years. This work will set the standard for its successors: independent in its analytical assessments, broad-spectrum in its choice of entry, far-sighted in its selections. John R. McIntyre, Georgia Institute of Technology, US The book is a must-have for any student, library, executive or entrepreneur contemplating the business environment in China. In an important society where clout is paramount and relationship is key, the book's listing of Who's Who in China is essential to success. An essential read for anyone thinking of doing business in China! J. Mark Munoz, Munoz and Associates International and author of A Salesman in Asia For anyone interested in interacting with China, whether doing business or not, it would be advantageous to know thy foe and thyself, as Sunzi (Sun Tzu) put it. And this work will definitely be conducive to your gaining an insight on contemporary China and its economic boom. It can be used as a reference tool or read as a textbook. Highly

recommended for college and public libraries. Shixing Wen, Editor-in-Chief, Chinese Librarianship, Former President, Chinese American Librarians Association and Councilor, American Library Association This exhaustive resource provides comprehensive coverage of the major players in the Chinese economy since the reform era, which began in 1978. It includes 200 entries briefly summarizing each individual's life and career, with a central focus on his or her accomplishments and the key roles played in the economic development of China. The emphasis of the book is on the movers and shakers of China's new economy, highlighting notable figures from both the initial economic liberalization period and the renewed growth from the early 1990s to the present time. This invaluable dictionary is the result of collaborative efforts across the globe. Over forty scholars from the United States, mainland China and Taiwan, United Kingdom, Germany, F

Corporate Governance of Chinese Multinational Corporations Nov 11 2019 This book is the first to explore the issue of corporate governance in China's new corporations. With rapid development over the last two decades, China has seen compelling achievements in overseas investment. Specifically, an increasing number of Chinese companies have been "going out" to become multinational enterprises. From the practical view, corporate governance issues have been identified in the literature as one of the most important factors in determining whether these Chinese multinational enterprises succeed or not. However, existing literature provides little investigation and understanding about corporate governance of Chinese multinational enterprises. This book fills that gap and will be of value to corporate executives, scholars of China's economy, and journalists.

The Legend Behind Lenovo Oct 23 2020 In 1996 a virtually unknown Chinese computer company called Legend surprised the world by overtaking such global powerhouses as Hewlett Packard, IBM and Compaq to become the leading computer manufacturer in China. Liu Chuanzhi and 10 colleagues, operating out of a ramshackle bungalow in Beijing, created a corporation with more than two billion dollars annual revenue and the first Chinese brand name to win international recognition.

Handbook of Research on Asian Business Dec 25 2020 This volume is excellent. Students who are interested in Asian business should read it and will find the comprehensive bibliography offered by the different contributors very helpful. In light of the recent global financial crises, it is time to re-examine the Asian miracles, as well as the Western models of business organizations and regulations. This volume offers great insights not just on Asian business but also on Western economies and business. It is also time to adopt an integrative approach recommended by Yeung through comparative research of businesses and economies in different institutions and cultures. Yifei Sun, Economic Geography An absolute must-have for college library reference shelves, filled cover-to-cover with keen analyses that any businessperson seeking to make inroads in an Asian market needs to study at length! Midwest Book Review This book serves as an important guide to the many fascinating research questions about Asian business waiting to be addressed. The study of Asian business has reached equality in importance to

the study of business in Europe and North America. Researchers who study any of these regions have an incentive to follow the study of business in the other regions, if for no other reason than that many global firms from each region operate in all regions now. Nonetheless, the more important reason for knowledge transfer among researchers of each region is that these exchanges can only advance everyone's research. Henry Yeung and the contributors are to be thanked for setting out a rich agenda for research on Asian business that will elevate this study to equality with research elsewhere in the world. Eurasian Geography and Economics This book is extremely comprehensive and well researched. It will be of particular interest to scholars in the fields of international business, development studies, economic geography, regional studies as well as international and national policymakers. Science Technology & Society The rise of Asia as an important region for global business has been widely recognized as one of the most significant economic phenomena in the new millennium. This accessible and comprehensive Handbook brings together state-of-the-art reviews of Asian business in an expansive range of areas including: business organizations strategic management marketing state business relations business and development business policy issues. It is argued that whilst academic studies on Asian business have been in existence for over two decades, there is relatively little systematic integration of our knowledge and research on Asian business. The contributors, drawn from a variety of disciplines within the social sciences, aim to redress the balance with their lively, cutting-edge discussion. Serving as a timely overview of more than two decades of scholarly research, this Handbook will be an essential resource for academics, students and researchers interested in Asian business.

Lenovo is listed on the Hong Kong Stock Exchange and is a constituent of the Hang Seng China-Affiliated

Corporations Index. "Lenovo" is a portmanteau of "Le-" (from Legend) and "novo," Latin ablative for "new." The Chinese name (simplified Chinese: traditional Chinese: pinyin: lianxi ng) means "association" (as in "word association") or "connected thinking" but can also imply creativity. For the first 19 years of its existence the company's English name was "Legend" (in Chinese Lianxiang). In 2002, Yang Yuanqing came to the conclusion that the company would have to abandon the use of the Legend brand name in order to develop outside of China, as the "Legend" name was already in use by a large number of other businesses... *The Dynamics of M&A Strategy* Feb 13 2020 China's banking sector has witnessed significant inbound M&A traffic by developed market banks in recent years. At the same time, Chinese banks have risen to become some of the world's biggest banks. Along with these massive market values and financing capabilities have come global ambitions culminating in first outbound M&A moves. This study exploratively researches the relationship between developed market banks' inbound M&A into China and Chinese banks' outbound M&A. Based on a conceptual discussion, case studies and expert interviews an explanation model is developed outlining the drivers and barriers of Chinese banks' outbound M&A and the factors in the inbound-outbound relationship. This model enables developed market banks to analyse potential M&A reactions by incumbents. Finally, dynamic M&A market entry strategies are derived, which explicitly account for future incumbent outbound M&A moves.
