This new edition was necessitated by the enactment of the landmark Gramm-Leach-Bliley Act that transformed the regulatory framework for securities activities of banks and their affiliates. Fein (former regulator, now a private practitioner) offers an in-depth analysis of the state of the law on securities activities, once thought to be off-limits to banking institutions. She also provides guidance on the full range of bank securities activities, with meticulous legal analysis and practical commentary on the entire range of securities and investment services

that banks and their affiliates can offer. Topics include an overview; the bank and securities regulatory framework; the Glass-Steagall Act; investment advice; brokerage, investment, trading, merchant banking, private placement, mutual fund, fiduciary, deposit and loan, and international securities activities; underwriting and dealing; securitization of assets; and derivative instruments. Material is presented in a three-ring binder. c. Book News Inc. This timely volume provides a thorough analysis of current trends in location and relocation of economic activity globally, regionally and locally. Using robust empirical material this book offers a multidisciplinary, comprehensive overview, critique and extension of long-established theories underpinning patterns of firm (re)location. It explores dominant trends in the mobility and relocation of industries and firms, examines the factors guiding such trends and evaluates their consequences in both developed and emerging economies in Europe, Asia and Latin America. This book will be appreciated by diverse audiences. Geography and regional science researchers of 'economic activity location' can engage with the critical appraisal of key theoretical concepts and an analysis of recent empirical data. Students of human and economic geography, planning, regional development, and global supply chain management in senior years of undergraduate programmes and completing postgraduate degrees will appreciate the accessible language, multiple examples and graphical illustrations of theoretical frameworks underpinning location and relocation of firms and industries, and its consequences. Practitioners, including local and regional policy makers and location consultants will enjoy the comparative discussion of solutions and practices adopted in localities, regions and countries as diverse as China, Brazil, The Netherlands and Poland. The magic of Paint by Sticker Kids continues, combining the fun of coloring and stickers with the creativity of paint by number. The series just keeps growing, with another much-loved nature-themed topic: Bugs! Paint by Sticker Kids: Beautiful Bugs includes everything kids need to create 10 full-color illustrations of their favorite creepy-crawlies: a firefly, a praying mantis, a ladybug, butterflies, ants, a painted grasshopper, a dragonfly, beetles, a bumblebee, and a weevil. Simply find the numbered sticker, peel it, and place it in the right space. Add the next, and the next—and watch a dazzling image come to life with color and spirit in the modern "low-poly" style (using geometric polygon shapes). The card-stock pages are perforated so artwork can be easily removed for framing or the fridge. Creating sticker art is as fun and meditative as coloring, and it's a refreshing shake-up from the usual crayons and markers. Plus, the peel-and-place system allows kids to practice recognizing and learning numbers in an interactive, stress-free way. And it's a great rainy day or travel activity (no cleanup!) that delivers hands-on fun for less than \$10.
