The Embrace of God's Mercy Jan 15 2020 On July 16, 1983, in an abandoned house on an Italian hillside, Sister Rita Petrozzi, known today as Mother Elvira, opened *Comunità Cenacolo*. That dilapidated building quickly became God's hope-filled answer to the desperate cries of the many lost, lonely, drug-addicted young people who soon began knocking on its door, seeking to be reborn. A potent apostolate was born. Today - barely thirty-six years later - *Comunità Cenacolo* consists of seventy houses stretched across the globe that welcome thousands of young people struggling with drug or alcohol addictions as they search for meaning in life. Mission houses in Africa, Central America, and South America shelter abandoned and orphaned street children, inviting them, too, on a journey of rebirth in love. Each house is imbued with God's

mercy and forgiveness. There young people live in a simple Christian family environment, transformed by the healing powers of prayer, work, friendship, sacrifice, and love. For decades now and on a daily basis, Mother Elvira's humble spirituality has awakened hope and joy in the souls of the troubled and the lost, giving each of them new life. Organization and Management in the Embrace of Government Oct 12 2019 *Organization and Management in the Embrace of Government* is an original exploration of how governments affect the ways people organize themselves, manage those organizations, and respond to the organizations thus created. It is a grounded theory of how governments that are weak, erratic, or hostile undermine complex organization, trust, meritocracy, commitment, and other implicit expectations about how organizations operate. Scholars, students, and all those interested in a better understanding of how governments affect our cultural expectations of one another, our organizations, and the economies based upon them will find this groundbreaking volume to be a rich resource. The author, President-Elect of the Academy of Management, distills original comparative data drawn from China, Hungary, the Czech Republic, Lithuania, and the United States to paint a coherent theory of the organizational effects of governments. The book has been written primarily to introduce organizational and governmental scholars to the ways that governments can influence organization and management. However, it also is written with an eye to readers with practical interests in international management or governments. This pioneering work will be discussed and analyzed for decades to come.

Contemporary American Fiction in the Embrace of the Digital Age Jan 27 2021 This collection aims to examine the relationship between American fiction and innovations that marked the first decades of the 21st century: the Internet, social media, smart objects and environments, artificial intelligence, nanotechnologies, genetic engineering and other biotechnologies, transhumanism. These technological innovations redefine the way we live in and imagine our world, interact with each other and understand the human being in his or her ever closer relationship to the machine a human being no longer, as in the past, cared for or repaired, but now enhanced or replaced. What about our artistic and cultural practices? Are these recent advances changing language and literature? How is fiction transformed by technological progress and what representations of progress can it oppose? Can fiction offer a critique of the new media and the upheavals they precipitate? How does the temporality of literature respond to a technical time subjected to the imperative of efficiency, where the present is a slave to the future? Do virtual worlds challenge the primacy of literary fiction as a privileged mode of escape from daily life? In a context where software can generate literary works, can the force of poetical advent still oppose algorithmic logics? What becomes of the body in a world in which its technical extensions increase the externalization of its cognitive functions in media artifacts and digital networks? In order to explore these questions, scholars here investigate the American fiction of Russell Banks, Don DeLillo, David Foster Wallace, Jonathan Lethem, Tao Lin, Richard Powers, Kenneth Goldsmith, Jennifer Egan or Jonathan Franzen as well as the Cyberpunk genre and the Neuronovel.

Embrace the Suck Dec 26 2020 Get into the Navy SEAL mindset with this raw, brutally honest, in-your-face self-help guide that will teach you how to thrive on adversity. During the brutal crucible of Navy SEAL training, instructors often tell students to "embrace the suck." This phrase conveys the one lesson that is vital for any SEAL hopeful to learn: lean into the suffering and get comfortable being very uncomfortable. In this powerful, no-nonsense guide, Navy SEAL combat veteran turned leadership expert Brent Gleeson teaches you how to transform every area of your life—the Navy SEAL way. Can anyone develop this level of resilience? Gleeson breaks it down to a Challenge-Commitment-Control mindset. He reveals how resilient people view difficulties as a Challenge, where obstacles and failures are opportunities for growth. Next, they have a strong emotional Commitment to their goals and are not easily distracted or deterred. Finally, resilient people focus their energy on the things within their Control, rather than fixating on factors they can't impact. *Embrace the Suck* provides an actionable roadmap that empowers you to expand your comfort zone to live a more fulfilling, purpose-driven life. Through candid storytelling, behavioral science research, and plenty of self-deprecating humor, Gleeson shows you how to use pain as a pathway, reassess your values, remove temptation, build discipline, suffer with purpose, fail successfully, transform your mind, and achieve more of the goals you set

The Sacred Embrace of Jesus and Mary Nov 24 2020 An examination of how the teachings of Jesus reveal the essential role of sexuality in spiritual growth and transformation • Shows that Jesus did not come to redeem humanity from the life of the flesh, but to honor it as a spiritual path • Uses Hebrew, gnostic, and early Christian source texts to reveal the true context of the words attributed to Jesus • Explores the spiritual and physical relationship shared by Jesus and Mary Magdalene Of all the major religions, Christianity is the only one that has utterly rejected sexuality as one of the many paths that can lead to enlightenment and salvation. But if Jesus was indeed "the Word made flesh" and serious consideration is given to the mystery of his Incarnation, is it reasonable that physical love would have been prohibited to him? Drawing from the canonical and apocryphal gospels, the Hebrew esoteric tradition, and gnosticism, Jean-Yves Leloup shows that Jesus did not come to save humanity from the life of the flesh but to save the life of the flesh so that it would truly transfigure all people. Leloup explains that when Saint Paul said it was good to be without women, he did not cite any words of Jesus in support of this contention. In fact, Paul's statement utterly contradicts the words of God in Genesis: "It is not good that man should be alone." Leloup argues that the elimination of the divine feminine and

sacred sexuality set in motion by Paul's words does not reflect the true teachings of Christ, and that the transformation of Jesus into a celibate is the true heresy. His research restores Christ's true human sexuality and shows it to be a vital part of humanity's spirituality. Leloup contends that by understanding the sacred nature of the embrace shared by man and woman as a true reflection of humanity made in God's image, Christianity can again become the powerful path of transfiguration Christ intended.

Asylum Mar 29 2021 Alexis's long-awaited second novel follows his award-winning *Childhood*. Set in Ottawa during the Mulroney years, *Asylum* is André Alexis's sweeping, edged-in-satire, yet deeply serious tale of intertwined lives and fortunes, of politics and vain ambition, of the building of a magnificent prison, of human fallibility, of the search for refuge, of the impossibility of love, and of finding home. Whether he is taking us into the machinations of a government office or into the mysterious workings of the human heart, Alexis is always alert to the humour and the profound truth of any situation. His cast of characters is eccentric and unforgettable, all recognizable in one way or another as aspects of ourselves or people we know well. At the centre of the story, which covers almost a decade, is a visionary project to build an ideal prison, a perfect metaphor for the purest aspects of artistic ambition and for all that is great and flawed in the world. André Alexis is a true original, one of the most talented and astute writers writing in Canada today. This dazzling novel is filled with tragedy, dry wit, intellectual grist. It is playful, linguistically accomplished, and psychologically profound. Its yearnings constitute the highest level of human concerns and pursuits. Alexis has written *The Great Canadian Novel*, with a twist.

Civilizations in Embrace Sep 15 2022 This study revisits one of the most extensive examples of the spread of ideas in the history of civilization: the diffusion of Indian religious and political ideas to Southeast Asia before the advent of Islam and European colonialism. Hindu and Buddhist concepts and symbols of kingship and statecraft helped to legitimize Southeast Asian rulers, and transform the political institutions and authority of Southeast Asia. But the process of this diffusion was not accompanied by imperialism, political hegemony, or "colonization" as conventionally understood. This book investigates different explanations of the spread of Indian ideas offered by scholars, including why and how it occurred and what were its key political and institutional outcomes. It challenges the view that strategic competition is a recurring phenomenon when civilizations encounter each other.

Exclusion and Embrace Mar 09 2022 Life at the end of the twentieth century presents us with a disturbing reality. Otherness, the simple fact of being different in some way, has come to be defined as in and of itself evil. Miroslav Volf contends that if the healing word of the gospel is to be heard today, Christian theology must find ways of speaking that address the hatred of the other. Reaching back to the New Testament metaphor of salvation as reconciliation, Volf proposes the idea of embrace as a theological response to the problem of exclusion. Increasingly we see that exclusion has become the primary sin, skewing our perceptions of reality and causing us to react out of fear and anger to all those who are not within our (ever-narrowing) circle. In light of this, Christians must learn that salvation comes, not only as we are reconciled to God, and not only as we "learn to live with one another," but as we take the dangerous and costly step of opening ourselves to the other, of enfolding him or her in the same embrace with which we have been enfolding by God. Is there any hope of embracing our enemies? Of opening the door to reconciliation? Miroslav Volf, a Yale University theologian, has won the 2002 Louisville Grawemeyer Award in Religion for his book, *Exclusion & Embrace: A Theological Exploration of Identity, Otherness, and Reconciliation* (Abingdon, 1996). Volf argues that "exclusion" of people who are alien or different is among the most intractable problems in the world today. He writes, "It may not be too much to claim that the future of our world will depend on how we deal with identity and difference. The issue is urgent. The ghettos and battlefields throughout the world—in the living rooms, in inner cities, or on the mountain ranges—testify indisputably to its importance." A Croatian by birth, Volf takes as a starting point for his analysis the recent civil war and "ethnic cleansing" in the former Yugoslavia, but he readily finds other examples of cultural, ethnic, and racial conflict to illustrate his points. And, since September 11, one can scarcely help but plug the new world players into his incisive descriptions of the dynamics of interethnic and international strife. Exclusion happens, Volf argues, wherever impenetrable barriers are set up that prevent a creative encounter with the other. It is easy to assume that "exclusion" is the problem or practice of "barbarians" who live "over there," but Volf persuades us that exclusion is all too often our practice "here" as well. Modern western societies, including American society, typically recite their histories as "narratives of inclusion," and Volf celebrates the truth in these narratives. But he points out that these narratives conveniently omit certain groups who "disturb the integrity of their 'happy ending' plots." Therefore such narratives of inclusion invite "long and gruesome" counter-narratives of exclusion—the brutal histories of slavery and of the decimation of Native American populations come readily to mind, but more current examples could also be found. Most proposed solutions to the problem of exclusion have focused on social arrangements—what kind of society ought we to create in order to accommodate individual or communal difference? Volf focuses, rather, on "what kind of selves we need to be in order to live in harmony with

others." In addressing the topic, Volf stresses the social implications of divine self-giving. The Christian scriptures attest that God does not abandon the godless to their evil, but gives of Godself to bring them into communion. We are called to do likewise--"whoever our enemies and whoever we may be." The divine mandate to embrace as God has embraced is summarized in Paul's injunction to the Romans: "Welcome one another, therefore, just as Christ has welcomed you" (Romans 15:7). Susan R. Garrett, Coordinator of the Religion Award, said that the Grawemeyer selection committee praised Volf's book on many counts. These included its profound interpretation of certain pivotal passages of Scripture and its brilliant engagement with contemporary theology, philosophy, critical theory, and feminist theory. "Volf's focus is not on social strategies or programs but, rather, on showing us new ways to understand ourselves and our relation to our enemies. He helps us to imagine new possibilities for living against violence, injustice, and deception." Garrett added that, although addressed primarily to Christians, Volf's theological statement opens itself to religious pluralism by upholding the importance of different religious and cultural traditions for the formation of personal and group identity. The call to "embrace the other" is never a call to remake the other into one's own image. Volf--who had just delivered a lecture on the topic of Exclusion and Embrace at a prayer breakfast for the United Nations when the first hijacked plane hit the World Trade Center--will present a lecture and receive his award in Louisville during the first week of April, 2002. The annual Religion Award, which includes a cash prize of \$200,000, is given jointly by Louisville Presbyterian Theological Seminary and the University of Louisville to the authors or originators of creative works that contribute significantly to an understanding of "the relationship between human beings and the divine, and ways in which this relationship may inspire or empower human beings to attain wholeness, integrity, or meaning, either individually or in community." The Grawemeyer awards--given also by the University of Louisville in the fields of musical composition, education, psychology, and world order--honor the virtue of accessibility: works chosen for the awards must be comprehensible to thinking persons who are not specialists in the various fields.

[Transcendence and Non-Naturalism in Early Chinese Thought](#) Oct 24 2020 Contemporary scholars of Chinese philosophy often presuppose that early China possessed a naturalistic worldview, devoid of any non-natural concepts, such as transcendence. Challenging this presupposition head-on, Joshua R. Brown and Alexis McLeod argue that non-naturalism and transcendence have a robust and significant place in early Chinese thought. This book reveals that non-naturalist positions can be found in early Chinese texts, in topics including conceptions of the divine, cosmogony, and apophatic philosophy. Moreover, by closely examining a range of early Chinese texts, and providing comparative readings of a number of Western texts and thinkers, the book offers a way of reading early Chinese Philosophy as consistent with the religious philosophy of the East and West, including the Abrahamic and the Brahmanistic religions. Co-written by a philosopher and theologian, this book draws out unique insights into early Chinese thought, highlighting in particular new ways to consider a range of Chinese concepts, including tian, dao, li, and you/wu.

Utopian Universities Jul 21 2020 In a remarkable decade of public investment in higher education, some 200 new university campuses were established worldwide between 1961 and 1970. This volume offers a comparative and connective global history of these institutions, illustrating how their establishment, intellectual output and pedagogical experimentation sheds light on the social and cultural topography of the long 1960s. With an impressive geographic coverage - using case studies from Europe, the Americas, Africa and Asia - the book explores how these universities have influenced academic disciplines and pioneered new types of teaching, architectural design and student experience. From educational reform in West Germany to the establishment of new institutions with progressive, interdisciplinary curricula in the Commonwealth, the illuminating case studies of this volume demonstrate how these universities shared in a common cause: the embodiment of 'utopian' ideals of living, learning and governance. At a time when the role of higher education is fiercely debated, *Utopian Universities* is a timely and considered intervention that offers a wide-ranging, historical dimension to contemporary predicaments.

Exclusion & Embrace Nov 17 2022 Life at the end of the twentieth century presents us with a disturbing reality. Otherness, the simple fact of being different in some way, has come to be defined as in and of itself evil. Miroslav Volf contends that if the healing word of the gospel is to be heard today, Christian theology must find ways of speaking that address the hatred of the other. Reaching back to the New Testament metaphor of salvation as reconciliation, Volf proposes the idea of embrace as a theological response to the problem of exclusion. Increasingly we see that exclusion has become the primary sin, skewing our perceptions of reality and causing us to react out of fear and anger to all those who are not within our (ever-narrowing) circle. In light of this, Christians must learn that salvation comes, not only as we are reconciled to God, and not only as we "learn to live with one another", but as we take the dangerous and costly step of opening ourselves to the other, of enfolding him or her in the same embrace with which we have been enfolded by God.

The Elusive Embrace Jul 01 2021 Hailed for its searing emotional insights, and for the astonishing originality with which it weaves together personal history, cultural essay, and readings of classical texts by Sophocles, Ovid, Euripides, and Sappho, *The Elusive Embrace* is a profound exploration of the mysteries of identity. It is also a meditation in which the author uses his own divided life to investigate the "rich conflictedness of things," the double lives all of us lead. Daniel Mendelsohn recalls the deceptively quiet suburb where he grew up, torn between his mathematician father's pursuit of scientific truth and the exquisite lies spun by his Orthodox Jewish grandfather; the streets of Manhattan's newest "gay ghetto," where "desire for love" competes with "love of desire;" and the quiet moonlit house where a close friend's small son teaches him the meaning of fatherhood. And, finally, in a neglected Jewish cemetery, the author uncovers a family secret that reveals the universal need for storytelling, for inventing myths of the self. The book that Hilton Als calls "equal to Whitman's 'Song of Myself,'" *The Elusive Embrace* marks a dazzling literary debut.
