Eva Chen and illustrator Sophie Diao is a moving ode to the immigrant experience, as well as a manifesto of self-love for Chinese American children. What do you see when you look in the mirror, Mei? Do you see beauty? We see eyes that point toward the sun, that give us the warmth and joy of a thousand rays when you smile. We see hair as inky black and smooth as a peaceful night sky. We see skin brushed with gold. Praise for I Am Golden: "[A] richly metaphoric celebration of Chinese American identity ... Luminous, gently textured digital art by Diao includes thoughtful, recognizably Chinese cues that add further dimension ... A loving, affecting tribute to how children of immigrants can serve as bridges and torchbearers for their communities." —Publishers Weekly, starred review "From the outset, this gorgeous picture book exudes joy and celebration of identity. Through dazzling illustrations, Diao brings to exuberant life best-selling Chinese American author Chen's message of finding love and power in one's differences. ... This powerful and uplifting story captures [Chinese] American joy and is a definite must-read." —Booklist, starred review

The Golden Cord Dec 19 2022 The title of

Charles Taliaferro's book is derived from poems and stories in which a person in peril or on a quest must follow a cord or string in order to find the way to happiness, safety, or home. In one of the most famous of such tales, the ancient Greek hero Theseus follows the string given him by Ariadne to mark his way in and out of the Minotaur's labyrinth. William Blake's poem "Jerusalem" uses the metaphor of a golden string, which, if followed, will lead one to heaven itself. Taliaferro extends Blake's metaphor to illustrate the ways we can link what we see, feel, and do with deep spiritual realities. Taliaferro offers a foundational case for the recognition of the experience of the eternal God of Christianity, in which God is understood as the fount of all goodness and the subject and object of our best love, revealed through scripture, tradition, philosophical reflection, and encountered in everyday events. He addresses philosophical obstacles to the recognition of such experiences, especially objections from the "new atheists," and explores the values involved in thinking and experiencing God as eternal. These include the belief that the eternal goodness of God subordinates temporal goods, such as the pursuit of fame and earthly glory; that God is the essence

of life; and that the eternal God hallows domestic goods, blessing the everyday goods of ordinary life. An exploration of the moral and spiritual riches of the Christian tradition as an alternative to materialism and naturalism, The Golden Cord brings an originality and depth to the debate in accessible and engaging prose.

The Girl in the Golden Atom Oct 25 2020 A classic work of science fiction, this novel was one of the first to explore the world of the atom. The Girl in the Golden Atom is the story of a young chemist who finds a hidden atomic world within his mother's wedding ring. Under a microscope,

he sees within the ring a beautiful young woman sitting before a cave. Enchanted by her, he shrinks himself so that he can join her world. ø Having worked for Thomas Alva Edison, Ray Cummings (1887?1957) was inspired by science?s possibilities and began to write science fiction. Both volumes are featured in this Bison Books edition, along with a new introduction by Jack Williamson.

hard, he will find his golden house, and the right girl to share it with him. Detective Maier has a new case. This time it is a cold case: investigating the death of Julia Rendel's father, an East German culture attaché who was killed near a fabled CIA airbase in central Laos in 1976. But before the detective can set off, his client is kidnapped right out of his arms. Maier follows Julia's trail to the Laotian capital Vientiane, where he learns different parties, including his missing client, are searching for a legendary CIA file crammed with Cold War secrets. The real prize, however, is the file's author: someone codenamed Weltmeister, a former US and Vietnamese spy and assassin no one has seen for a quarter century. Racing against time, Maier needs to dig deep into the past - including his own - in order to make sense of the present. The second book in Tom Vater's Detective Maier Mysteries series, The Man With The Golden Mind is an action-packed thriller with plenty of sex, drugs, assassinations and double-crosses. This book contains graphic violence and is not suitable for readers under the age of 18.***

The Golden House Oct 05 2021 **New York Times bestseller** A Guardian / Observer Book of the Year When powerful real-estate tycoon Nero Golden immigrates to the States under mysterious circumstances, he and his three adult children assume new identities, taking 'Roman' names, and move into a grand mansion in downtown Manhattan. Arriving shortly after the inauguration of Barack Obama, he and his sons, each extraordinary in his own right, quickly establish themselves at the apex of New York society. The story of the Golden family is told from the point of view of their Manhattanite neighbour and confidant, René, an aspiring filmmaker who finds in the Golden family the perfect subject. René chronicles the undoing of the house of Golden: the high life of money, of art and fashion, a sibling quarrel, an unexpected metamorphosis, the arrival of a beautiful woman, betrayal and murder, and far away, in their abandoned homeland, some decent intelligence work. Invoking literature, pop culture, and the cinema, Rushdie spins the story of the American zeitgeist over the last eight years, hitting every beat: the rise of the birther movement, the Tea

Party, Gamergate and identity politics; the backlash against political correctness; the ascendancy of the superhero movie, and, of course, the insurgence of a ruthlessly ambitious, narcissistic, media-savvy villain wearing make-up and with coloured hair. In a new world order of alternative truths, Salman Rushdie has written the ultimate novel about identity, truth, terror and lies. A brilliant, heartbreaking realist novel that is not only uncannily prescient but shows one of the world's greatest storytellers working at the height of his powers.
